SUBJECT INDEX

- A
- Achievement**
 academic
 biographical factors on, 347
 economic determinism and, 347-48
 family on, 347
 of medical students, 346-47
 prediction of, 286, 293, 299-300, 366-67
 Strong Interest Blank and, 343-44
 scale for, 345
- ACTH**, see Behavior abnormalities; and Physiological psychology, adrenocortical mechanisms
- Adolescence**
 attitudes, 364
 developmental tasks of
 parental control on, 9
 sex on, 12-13
 emotional independence, 8-9, 13
 parent-child conflict, 8
 Rosenzweig Picture Frustration Test, 305
 sex-role performance in, 9
 social psychology of, 364
 sociopolitical attitudes, 191
 see also Delinquency
- Aggression**
 arbitrariness and, 161-62
 frustration on, 16, 161-62
 training on performance, 162
 see also Child behavior, aggressiveness; and Personality, aggression
- Animal Psychology**
 approach-avoidance conflict, 240-42
 audiogenic seizures
 ACTH on, 235
 body temperature on, 236
 learned control of, 236-37
 middle ear infections and, 235-36
 susceptibility to, 235-37
 test chamber size on, 235
 avoidance responses, 263
 behavior, see Behavior
 brain damage and behavior, 251-55
 cannibalism, 230
 constitutional features
 thiouracil on, 230
 thyroprotein on, 230
 ear-scratching response, 241
 electroshock convulsions, 237-39
 experimental neuroses, 263-64
 fixation responses, 263
 genetic oddities, 230-31
 insoluble problem situations, 242-44
 learning performances
 anoxia on, 231-32, 248
 blindness on, 247, 251-52
 drugs on, 231
 free environment on, 232, 247-48
 x-irradiation on, 231, 248, 250-51
 mutilation patterns, 230
 physiologic correlates, 263
 sensory processes
 color sensitivity, 233, 249
 jet engine noise, 234, 249
 polarized light function, 233-34, 248-49
 ultrasonic sound on, 234, 249-50
 see also Comparative psychology and Physiological psychology
- Anxiety**
 carbon dioxide inhalations on, 269
 combat neurosis and, 271
 as drive, 35, 47-48, 151
 drugs on, 269
 eyeblink conditioning, 151
 interference tendency and, 159-60
 in learning, 17-18, 35, 151-55, 267
 difficulty range and, 153
 task complexity and, 151-54
 variables, 153-54
 Mandler-Sarason questionnaire, 155-59
 measures of, 150, 155-59
 of neurotics, 150
 of normals, 150
 performance and, 151-53
 absolute differences in, 158
 ego-involvement, 157-58
 failure experiences on, 155
 failure versus neutral stimulation on, 156
 habit-response on, 158-59
 kind of task on, 153, 161
 learned response on, 158
 response-hierarchy concept of, 159
 success stimulation, 156-57
 task complexity and, 151-54
 testing instructions on, 157
 theories of, 159
 on personality, 150-55
 on physiological processes, 267
 posthypnotic amnesias on, 270
 "proneness," 287
 reduction, 288, 349
 reduction theory, 242
 Rosenzweig Picture Frustration Test, 305
 scale of
 general, 150-51
 in testing situation, 155-59
 sexual frustration on, 269
 sodium benzoate on, 267
 special test of, 267
 in testing situation, 155-59
 experimental variables, 156-58
 therapy, 267
 see also Personality, anxiety
- Assessment**
 applied psychologists, 281-82
 of changes during psychotherapy, 311-12
 clinical psychology texts, 301-2
 criterion problems, 292-93
 diagnostic categories and, 292-93
 job performance, 293
 medical school freshmen variance, 293
 multidimensional nature of criteria, 293
 socially relevant measures, 292
 sales success predictions, 293
 teacher behavior, 293
 criterion variables
 needed measures of, 306-7
 empirical versus theoretical continuum, 284-86
 evaluation, 281-82
 future possibilities of, 306-7
 general contributions, 282-84
 general reviews of, 290-92
 global, 293-94
 interjudge agreement
 in interview, 295

- of psychotherapy outcome, 297-98
- spurious cues on, 295-98
- stereotype in, 295
- of superiors, 296
- interview in
 - defense of, 286
 - predictive validity, 287
 - psychiatrist judgments, 287-88
 - "stereotype" evaluation, 295
 - test battery and, 287
 - validity of, 286
- methodological contributions, 305-6
- "modal profile," 295
- new studies in, 293-96
- organismic hypothesis, 288
- peer judgments, 300-1
- personnel psychologists and, 281
- prediction, 281-82
- predictive validity studies
 - college and professional school achievement, 299-300
 - by criteria, 296-301
 - of delinquents, 301
 - projective techniques, 288-89
 - in psychotherapy, 296-98
 - sales performance, 298-99
 - teacher performance, 300
 - "understanding," 289-90
- predictor variables
 - needed measures of, 306-7
- psychologist's role in, 286-90
 - creative hypotheses, 290
 - interview, 286-87
 - judgment against criteria, 287-88
 - organismic hypothesis, 288
 - "understanding," 289-90
 - "reality testing" function of, 307
- relevant theory
 - absence of, 306
- research studies
 - need for, 291
- self-report inventories
 - faking in, 305-6
 - objective tests and, 360
 - predictive validity of, 305-6
- situation tests, 294-95
- of teachers, 369
- test oriented studies, 301-5
 - Bender-Gestalt, 304-5
 - drawing techniques, 304
 - Minnesota Multiphasic Personality Inventory, 305
 - Rorschach Test, 302-3
 - Strong Vocational Interest Blank, 305
 - Szondi Test, 303-4
- Thematic Apperception Test, 304
- Wechsler Intelligence Scale for Children, 305
- theories and techniques of, 281-307
 - total process, 281
- Attitudes
 - ability on, 364
 - of adolescents, 364
 - change of, 164-87
 - conclusion drawing on, 185
 - dramatic news event on, 186-87
 - dynamics of, 285
 - fear arousal on, 185
 - in management, 223
 - measurement of, 345
 - monologue-dialogue radio on, 186
 - repeated oral propaganda, 186
 - situation definition on, 186
 - "sleeper" effect in, 185-86
 - social, 332
 - toward college, 345-46
 - deviant, 14-19
 - ethnic
 - family on, 10-11
 - personality factors and, 193
 - expression of
 - overt behavior and, 195
 - of family, 8-11
 - group-anchored, 182
 - in industry, 219-20
 - to poverty, 365
 - to race, 366
 - to religion, 366
 - scale for, 345-46
 - scale analysis of, 187-88
 - social class on, 6-7, 365-66
 - sociopolitical, 190-92
 - of adolescents, 191
 - appeals of Communism Project, 191-92
 - emotion on, 191
 - personal determinants of, 190-91
 - personality measures and, 191
 - survey of, 219-20
 - survey methodology, 188-89
 - of teachers
 - to criticism, 357
 - experience on, 370
 - intelligence on, 369
 - measurement of, 345
 - socioeconomic status on, 369
 - see also Behavioral development; Children, attitudes of; and Communication
- Audition, see Hearing
- Auditory fatigue, see Hearing, auditory fatigue
- B
- Behavior
 - anticipatory
 - cortical lesions on, 253
 - in psychotherapy, 314
 - biochemical correlates of, 255-56
 - biodynamics of, 264
 - brain damage on, 251-55
 - of blinded rats, 251-52
 - learning new tasks, 252-53
 - pattern discrimination, 253-54
 - recovery from, 251
 - satiation effects, 259
 - temporal discrimination, 253-54
 - see also Brain damage
 - cautery on, 251
 - cortical lesions on, 251
 - differential prediction, 283-84
 - early environment on, 231-33, 247-48
 - electroshock convulsions on, 237-39
 - anticipatory responses, 238
 - conditioned emotional response, 239
 - delayed responses, 239
 - differential cue trials, 238
 - drugs and, 239
 - phases of, 237
 - recovery from, 237-38
 - thresholds, 237, 257
 - free versus restricted environment, 232-33, 247-48
 - frustration on, 242-44
 - schizophrenic process, 319
 - "frustration instigated," 242
 - genetic factors on, 230-31
 - environment and, 231
 - gene location, 231
 - "goal motivated," 242
 - infancy stimulation on, 232, 248
 - patterns of, drugs on, 263
 - prefrontal lobectomy on, 254
 - supervision, 293
 - teacher, factors of, 293
 - see also Animal psychology; Behavior abnormalities; Behavioral development; Child behavior; Comparative psychology, behavior; and Social behavior

Behavior abnormalities, 263-77
 accident proneness, 16-17, 385
 agnosia, 259-60
 akinesia, 255
 alexia, 259-60
 anoxia on, 14, 231-32, 248
 anorexia nervosa
 neurosurgical intervention on, 316
 audiogenic seizures, 234-37
 ACTH on, 235
 body temperature on, 236
 learned control of, 236-37
 middle ear infection and, 235-36
 susceptibility to, 235-37
 biochemical factors in, 255
 brain conditions and, 14-15
 catatonia
 proteolytic enzymes and, 256
 following cerebral operations, 251
 childhood experiences and, 268
 classification of, 264-66
 manual, 264-66
 symptom ratings, 275, 292-93
 in children, 14-19
 conflict and, 239-44
 basic varieties of, 240
 carbon dioxide inhalations, 269
 experimental neuroses and, 263-64
 new stimulus situations and, 240
 criterion analysis, 165-66
 diagnosis
 multiple psychiatric, 291
 new concepts, 264-66
 psychologic factors in, 274-76
 research studies in, 267
 standard clinical tools and, 274-75
 etiology
 new concepts of, 264-66
 experimental investigations, 263-64
 factor analysis of, 131-32
 fear
 drugs on, 263
 fixations concept, 43, 242-44, 263, 264, 319
 frustration tolerance and, 319
 hypersomnolence, 255
 hysterical deafness, 258
 as interpersonal incompetence, 318
 interviewing, 266-67
 learning difficulties, 17-18
 leucotomy on, 316

manic depressives
 biochemical factors in, 256
 criterion analysis of, 165
 manual of, 264-66
 mental defects
 assessment of, 370
 glutamic acid on, 137
 Stanford Binet test of, 370
 statutory definition of, 19, 370
 military psychoses, 271
 in military settings, 270-72
 civil defense and, 272
 combat neuroses, 271
 postcombat neuroses, 272
 prisoner of war reactions, 271
 selection and performance, 270-71
